PROFILE

Highly motivated individual with the passion and enthusiasm to learn and evolve in the the modern world and age.

A former Tel-Aviv University mathematic student who shifted to computer science.

Using my free time for personal projects using mostly python.

Execution and time management are some of my virtues.

I have a strong mathematic background and fluent in english.

Great team player and holds strong interpersonal skills and technical background.

EDUCATION

Pre-Academic program

2020-2021

Bar-Ilan University

Finishing at the top of the class scoring an average grade of over 99 in a full academic year in the field of exact science.

Computer Science (Year 1)

2023-Now

The Open University

Successfully finishing the first year courses at the open university including Calculus, Linear Algebra and Introduction to Algorithms and Data Structures with an average grade of 88.

Learning at the Open University has taught me how to manage my studies, time and tasks in a way that allows me to excel at the highest level.

Looking and excited to continue my computer science degree in Tel Aviv University starting from the next semester!

WORK EXPERIENCE

ROSEMAN ENGINEERING

2023-Now

Worked as a full-time technical support representative. Troubleshoot hardware, software, and network issues to ensure minimal disruption to the company employees. Demonstrated capacity to explain complex tech issues in understandable terms to non-technical staff.

In addition developed python scripts and automations in order to have a more efficient workflow.
