PROFILE

Highly motivated individual with the passion and enthusiasm to learn and evolve in the the modern world and age.
I am a transitioning computer science student to Tel-Aviv University currently finishing my last courses required for the first year at the Open University.
Looking to transition to a student job leading into my next semester at Tel Aviv University.
Using my free time for personal projects using python and a bit of SQL.
Execution and time management are some of my virtues and what helped me achieve a 88 GPA at the open university.
Great team player and holds strong interpersonal skills.
Available for a student opening starting immediately.

EDUCATION

Pre-Academic program   2020-2021

Bar-Ilan University

Finishing at the top of the class a full academic year in the field of exact science.

Computer Science (Year 1)   2022-Now

The Open University

Successfully finishing most of the first year courses at the open university including Calculus, Linear Algebra and Introduction to Algorithms and Data Structures.
Learning at the Open University has taught me how to manage my studies, time and tasks in a way that allows me to excel at the highest level.

Computer Science (Year 2)   2024-2025

Tel Aviv University

Eagerly preparing to transition to Tel Aviv University's renowned Computer Science program, driven by the prospect of expanding my knowledge and honing my coding capabilities.
